Insulated Sectional Doors by IGD

Are your energy costs going out the door?

- * Did you know your garage is one of the largest areas for heat transfer in your home?
- * Up to 50% of the front of your home is taken up by your garage
- * Standard garage doors have no effect in reducing the transfer of temperature and contribute to energy costs
- * A sectional door supplied by IGD has more than 3 times the insulation value of double brick
- * Installation of our doors can help reduce your energy costs and therefore reduce your greenhouse footprint

- * **40mm High Density Polyurethane**
- * **3 times the insulation value of double brick!**
- * **Perfect for garages that face North or West**
- * **The quietest and strongest garage door on the market!**
- * **Belt driven openers means whisper quiet operation**
- * **Powder coated tracks and hardware as standard**
- * **Double sided panels turn your garage into another room**
- * **Acoustic properties dramatically reduce roadside noise**
- * **Available in a range of colours**
- * **Non standard colours are available on request**
